Work Experience

Streak AI Technologies Pvt Ltd.   Bangalore

Frontend Developer   *Dec 2022 - Present*

streak.tech (A systematic trading platform), *Technicals* (Indian Market Technicals)

- Spearheaded the responsive design coding for a **critical create flow,** ensuring a seamless experience with a different flow from the web design, while maintaining consistent components.
- Successfully managed multiple repositories as the **primary maintainer,** showcasing strong organizational and version control skills.
- Collaborated under **tight launch-time pressure,** ensuring precision in the design and optimization of a B2C product. Worked closely with stakeholders, design, backend, and support teams to deliver within specified timeframes.
- Optimized API calls, resulting in enhanced **website performance** and a reduction in server load, ultimately **decreasing server costs**.
- Implemented **user analytics** using Google Analytics to understand and adapt to user behavior, contributing to product improvements.
- Led the development of a **financial market summary** product for **Zerodha,** providing clients with a one-click solution.
- Single-handedly maintained a high-traffic repository, handling over **1 million user hits daily.**
- Collaborated with the backend team to transition websockets from JSON to binary, **reducing data transfer time by 70%.**

Education

2019 - 2022   Bachelor of Science in Information Technology, **University of Mumbai**   **(GPA: 9.82/10)**

Projects

AstroHood 🔗 | *ReactJS, ReduxToolKit, ReactRouter, React Moment, React Hot Toast, AstroUI*
Tailored for astronomy enthusiasts, is a user-friendly community app.

AstroMart 🔗 | *ReactJS, ContextAPI, ReactRouter, AstroUI*
A one-stop shop for astronomy enthusiasts with curated product listings and advanced filters.

AstroTube 🔗 | *ReactJS, ContextAPI, ReactRouter, ReactPlayer, AstroUI*
Streamlined video platform with category filtering, personalized playlists, and enhanced user engagement features.

Astro UI 🔗 | *Design System*
An open source design system for building minimalist yet elegant web-applications.
